SUMMARY

IT professional with 15+ years of experience, combining deep expertise in automation, CI/CD, and infrastructure with strong software development skills. Proven ability to build tools that monitor systems, automate critical workflows, and optimize delivery pipelines. Known for driving efficiency, collaborating across global teams, and continuously improving processes. Proficient in Python, JavaScript, Docker, Git, Linux and a range of DevOps and automation tools.

WORK EXPERIENCE

Software Developer

Luxoft - March 2022 - Present

Transitioned from Automation Engineering to Software Development, expanding role to cover full-stack development and DevOps practices.

- Developed tools and dashboards for system monitoring, device management, and workflow automation
- Enhanced CI/CD pipelines and integrated automated tests to ensure high-quality deliverables
- Designed and built web solutions using Vue.js, Vuetify, NestJS, Python, and Docker
- Improved system reliability through automation of performance and integrity tests
- Led initiatives to optimize development and testing processes, increasing team efficiency

Automation Engineer

Luxoft - January 2019 - March 2022

- Created and maintained automated test suites for set-top boxes in CI environments
- Built internal tools for testing, monitoring, and deployment management
- Conducted system stress tests and monitored test environment health
- Contributed to improved QA workflows and team productivity
- Technologies: Python, ShellScript, MySQL, JavaScript, VueJS, Vuetify, Jira, MongoDB,

Middleware Support and Tester

IBM - December 2009 - November 2018

- Planned and executed test cases for telecom middleware systems.
- Conducted regression, load, performance, and shakeout testing.
- Provided middleware support including monitoring, configuration, and troubleshooting.
- Worked with WebSphere MQ, DataPower, JBoss, and SQL Developer.

EDUCATION

Post Bachelor Degree in Service Oriented Architecture

Veris Metrocamp – Campinas, Brazil (2013 - 2014)

Bachelor Degree in Computer Science

Universidade Paulista – Limeira, Brazil (2006 - 2009)

SKILLS

Programming Languages:

Javascript, Python, Shell
Script

Tools and Frameworks:

SoapUI, Docker, Git, Jira,
HP ALM, Postman, VueJs,
React, Django, Flask

Databases:

Oracle, MySQL, MongoDB

Operating Systems:

Windows, Linux, MacOS

LANGUAGES

Portuguese - Native
English - Fluent
Spanish - Basic
